

Flexfab

FILING AND STORAGE UNITS BUILT TO YOUR NEEDS

If our wide variety of standard dimensions does not entirely meet your filing requirements, if you need to file non-standard-sized documents, or if you just want to shave 2" or 3" off your drawer width to make better use of the available space - simply send us a sketch of what you need, including the desired dimensions! That's all there is to it. If you need your file cabinet to support a work surface, be mobile on sturdy casters, or if all eight drawers must measure 26 1/2" wide and 24" deep - a basic drawing is all it takes.

Many standard paint colors are available. We also offer custom-matched colors, usually without additional charge.

FILING AND STORAGE UNITS BUILT TO YOUR NEEDS

Standard file cabinets or a custom-built, task-specific storage system - that's the Flexfab alternative.

Our standard line - a few of the components are shown below - offers an unprecedented choice of dimensions, from the 24" width (so practical in small spaces), to the 42" width, giving you the lowest filing cost per inch. You want to maximise your filing space, ask for our High Density lateral files. You prefer 10 1/2" instead of 12" drawers, or plan to use your file cabinets as extra work surfaces or as a full-height divider/storage wall, now you have the choice.

Standard at Flexfab, our locking mechanisms on lateral files may be positioned between drawer 2 and drawer 3, or drawer 3 and drawer 4, etc.

Also, all of our drawers have effective locking mechanisms, even on 3" drawers!

FILING AND STORAGE UNITS BUILT TO YOUR NEEDS

The Flexfab tower is a versatile personal storage cabinet. One side functions as a traditional locker, while the other half combines a modular drawer system and a hinged-door opening with adjustable shelves.

The open tower, with a practical bookcase and adjustable shelves, is designed to suit your workspace's unique needs. Our towers are available in both left- or right-handed format.

We have a variety of multi-purpose units, with a wide range of sizes and options available.

Sloped shelf units are an effective way to store and display brochures and magazines.

FILING AND STORAGE UNITS BUILT TO YOUR NEEDS

We offer an extensive range of vertical files and pedestals. Vertical files are available in different heights, and in both letter and legal widths.

Flexfab pedestals provide more storage space without taking up floor space. The overall height of 27 1/2" will fit under a writing-height work surface. Letter or legal pedestals are available in both 18", 20", 22" and 28" depths.

Compressor

Modular pedestal

Ventilated computer compartment

We offer a unique cabinet where you can store a tower computer in a locked, ventilated cabinet that incorporates filing and general storage.

All our drawers operate on fully extending, ball-bearing suspension arms to ensure years of smooth, trouble-free use.

Mobil pedestal

Drawer for small accessories, CD, DVD...

Fully extending steel ball-bearing suspension "Interlock" safety system
